

Praveen maddela

Senior Frontend Engineer · design systems and accessibility

praveenmaddela7848@gmail.com · Hyderabad

SUMMARY

I build interfaces that hold up - component libraries other teams can actually use, and the token architecture underneath them. Currently at Kestrel Systems, looking for a senior role where the design system is treated as a product rather than a folder.

SKILLS

React, TypeScript, Next.js, Accessibility, Node.js, GraphQL, PostgreSQL, System Design, D3, Vue, CI/CD

EXPERIENCE

Senior Frontend Engineer

Dec 2022 - Present

Kestrel Systems · Remote

- Own the component library used by four product teams. Took the design system from a folder of copied components to a versioned package with tokens, tests and a migration path off styled-components.

Frontend Engineer

Sep 2020 - Dec 2022

Vantage Analytics · Bengaluru

- Built the customer-facing analytics dashboard - D3 charts over a million-row dataset, with virtualised tables and a query layer that kept p95 under 400ms.

Junior Developer

Aug 2018 - Sep 2020

Fernpath Studio · Hyderabad

- Marketing sites and small product work. Learned to ship.

EDUCATION

JNTU Hyderabad

Aug 2014 - Jul 2018

B.Tech, Computer Science · 8.4 CGPA
